

Abhishek Shirure - Portfolio Website

A modern, responsive portfolio website showcasing skills, projects, and professional information.

File Structure

```
portfolio/
|
├── index.html ..... # Main HTML file
├── style.css ..... # CSS styling
├── script.js ..... # JavaScript functionality
├── README.md ..... # Project documentation
├── assets/ ..... # Images and other assets
│   └── images/
│       └── logo.png ... # Your logo (if needed)
```

Features

- **Modern Design:** Glass morphism effects and gradient backgrounds
- **Responsive Layout:** Works perfectly on all devices
- **Smooth Animations:** Typing effect, scroll animations, and hover effects
- **Social Media Integration:** Links to all your social profiles
- **Professional Sections:** About, Domain, Projects, and Contact
- **Fast Loading:** Optimized performance with CDN resources

Technologies Used

- **HTML5:** Semantic structure
- **CSS3:** Modern styling with animations
- **JavaScript:** Interactive functionality
- **Tailwind CSS:** Utility-first CSS framework
- **Font Awesome:** Professional icons
- **Google Fonts:** Custom typography

Responsive Design

The website is fully responsive and optimized for:

- Desktop (1920px+)

- Laptop (1024px - 1919px)
- Tablet (768px - 1023px)
- Mobile (320px - 767px)

Color Palette

- **Primary:**  `#f9c449` (Golden Yellow)
- **Secondary:**  `#ff6b6b` (Coral Red)
- **Accent:**  `#4ecdc4` (Turquoise)
- **Background:** Linear gradient ( `#0f0f23` to  `#2d1b4e`)
- **Text:** White and Gray variants

Setup Instructions

1. **Download all files** to your desired folder
2. **Maintain the file structure** as shown above
3. **Open index.html** in your web browser
4. **Customize content** in HTML file
5. **Update social media links** with your actual profiles
6. **Add your projects** in the projects section

Customization Guide

Update Personal Information

- Edit the content in `index.html`
- Update social media links in the header
- Modify the "About Me" section with your information
- Add your actual email in the contact section

Add New Projects

html

```
<div class="project-card">
  <h3>Your Project Name</h3>
  <p class="text-gray-300 mb-4">Project description here.</p>
  <a href="project-link" target="_blank">View Project</a>
</div>
```

Modify Colors

Update the CSS variables in `style.css`:

```
css

:root {
  --primary-color: #f9c449;
  --secondary-color: #ff6b6b;
  --accent-color: #4ecdc4;
}
```

Browser Support

- Chrome 60+
- Firefox 60+
- Safari 12+
- Edge 79+

Performance Features

- **Lazy Loading:** Images load as needed
- **Optimized CSS:** Efficient styling with minimal bloat
- **CDN Resources:** Fast loading of external libraries
- **Compressed Images:** Optimized for web

Deployment Options

Option 1: GitHub Pages

1. Upload files to GitHub repository
2. Enable GitHub Pages in repository settings
3. Your site will be live at `https://username.github.io/repository-name`

Option 2: Netlify

1. Drag and drop your folder to Netlify
2. Get instant hosting with custom domain options

Option 3: Vercel

1. Connect your GitHub repository
2. Automatic deployments on every commit
